FUND MANAGER COMMENTARY

In June 2023, DPLK Equity ER13/E5 Fund booked performance of +1.39% mom, slightly above the benchmark performance. By sector inside JCI, Energy was the largest positive contributor (+0.5% mom), while Consumer Discretionary was the largest negative contributor (-1% mom). In last month, global equity market generally posted positive performance with a rally in first half of the month, driven by expectation on US interest-rate pause due to slowdown in US inflation, which followed by correction in the later half of the month due to Fed signaled that it wasn't done with the interest rate hike. Domestic market, in general, also posted positive movement with similar pattern although with IDR4.4t net foreign outflow. Going forward, the potential of sustainable and structural improvement in Indonesian economy with rising GDP/capita will become positive tailwind for long term Indonesian equity asset class for medium-long term horizon.
