FUND MANAGER COMMENTARY

In February 2019, IDR Equity Syariah Fund booked performance of -4.53% mom, in line with JII performance of -3.9%. By sector inside JII, Materials was the largest positive contributor (0.2% mom), while Consumer Discretionary was the largest negative contributor (-2.4% mom). Global market continued the rebound in last month, supported by ongoing Fed dovish statement and positive development of US-China trade talk. However foreign selling activity (net outflow of IDR 3.36tn) which was driven by profit taking activity due to previously better relative performance in the last six months had pressured Indonesian market to be closed on negative territory. IDR slightly weakened against USD by 0.7% mom to IDR 14,069/USD with January trade balance came at deficit USD 1.16bn. Going forward, Indonesia Equity market will continue to depend on domestic economy development, USD/IDR currency movement and global risks' dynamics.
