FUND MANAGER COMMENTARY

In February 2019, IDR Ultimate Equity Fund booked performance of -1.53% mom, in line with JCI performance of -1.4%. By sector inside JCI, Communication Services was the largest positive contributor (0.2% mom), while Consumer Discretionary was the largest negative contributor (-0.6% mom). Global market continued the rebound in last month, supported by ongoing Fed dovish statement and positive development of US-China trade talk. However foreign selling activity (net outflow of IDR 3.36tn) which was driven by profit taking activity due to previously better relative performance in the last six months had pressured Indonesian market to be closed on negative territory. IDR slightly weaken against USD by 0.7% mom to IDR 14,069/USD with January trade balance come at deficit USD 1.16bn. Going forward, Indonesia Equity market will continue to depend on domestic economy development, USD/IDR currency movement and global risks' dynamics.
