### FUND MANAGER COMMENTARY

In January 2019, IDR Dynamic Syariah Fund booked performance of +3.23%. Indonesian Equity market performed positively amid global market rebound, driven by dovish Fed stance and ongoing trade talks between US and China. Meanwhile, IDR government bonds was supported by foreign funds inflow by IDR 16.68tn and Rupiah also appreciated by 2.90% MoM to IDR 13,973/USD after a range of Federal Reserve officials has shifted view for the Fed to pause rate hike this year and reassess economic conditions. Inflation in December 2018 stayed stable at 3.13% YoY (November 2018 at 3.23% YoY) contributed by airfare and education, while foods costs contracted. Expectation of pausing US Fed rate hike has prompted investors to look for risky assets as investment. Indonesia local government bond benchmark series prices increased and expected to gain also in upcoming month.
