FUND MANAGER COMMENTARY

In June 2019, IDR Equity Fund booked performance of +3.34% mom, in line with JCI performance of 2.4%. By sector inside JCI, Financials was the largest positive contributor (1.4% mom), while Consumer Staples was the largest negative contributor (-0.3% mom). Global market rebounded in last month, driven by hint on Fed intention to cut rate in the near term with current market expectation of 2-3x Fed rate cut up until the end of the year. Added into the positive sentiment was Trump positive commentary after the meeting with Xi at G20 event that resulted in resuming trade negotiations. Along with the global market, domestic equity market also continued the rebound. BI decision to lower the reserve requirement ratio as well as smooth process of Constitutional Court decision making also become a positive factors for the domestic market. Going forward, Indonesia Equity market will continue to depend on domestic economy development, USD/IDR currency movement and global risks' dynamics.
