FUND MANAGER COMMENTARY

Indonesia bond market made a positive return in June 2019. Bloomberg Indonesia Local Sovereign Index (BINDO) went up +4% on monthly basis, with foreign inflow of IDR 39 trillion in June 2019. The IDR Prime Fixed Income Fund performance reported +4.29% return in month of June 2019. Global positive sentiment was coming from higher expectation of Fed rate cut in second half 2019 and lower trade war tension between US and China as President Donald Trump hold off additional USD300 billion import tariff and allowing US companies to continue to do some business with Huawei. On domestic side, combination of IDR strengthening, diminishing political tension and lower benchmark interest rate expectation, created positive sentiment for Indonesia bond market. In addition, Bank Indonesia has shifted the tone from pro-stability to pro-growth by reducing the reserve requirement ratio by 50 bps in June 2019.
