FUND MANAGER COMMENTARY

In May 2019, IDR CII Equity Fund booked performance of -3.18% mom, in line with mixed movement of the three underlying markets in IDR (MXID performance of -3.9%, MXCN performance of -13%, MXIN performance of 1%). Global market corrected in last month driven by sudden escalation in trade war. Domestic equity market also corrected along with the global market in the first half of the month driven by the same trade war issue as well as weak April trade data. IDR was peaked at IDR 14,452/USD (weakening from previous month close of IDR 14,259/USD) before came back to IDR 14,273/USD in the end of May. In the second half of the month, along with improving USD/IDR, domestic equity market rebounded ahead of the global market due to bargain hunting and unexpected S&P rating upgrade. Going forward, China, India, and Indonesia equities will continue to depend on economic development, currency's stability, and global risks' dynamics.
