Fidelity Global Multi Asset Income Fund A-ACC MF 100.00%

FUND MANAGER COMMENTARY

Overall, the portfolio managers retain a cautious stance against an uncertain market backdrop. At the asset group level, they continue to like high yield bonds as fundamentals remain supportive. On the currency side, the managers lowered the exposure to the Japanese yen due to better sentiment towards risk assets and a more positive outlook for emerging market currencies. Instead, the managers increased the allocation to the euro, which has seen significant weakness over the last two years.
