FUND MANAGER COMMENTARY

In October 2019, IDR Equity Fund booked performance of +0.66% mom, in line with JCI performance of 1%. By sector inside JCI, Financials was the largest positive contributor (0.9% mom), while Consumer Staples was the largest negative contributor (-0.4% mom). Global market rallied in last month driven by further optimism in US-China trade deal progress as well as expectation and realization of Fed rate cut, albeit with a hint of pause on the cut for this year. Domestic equity market followed the rally until being corrected on the last week of the month amid soft 3Q earning announcement. BI cut another 25bps in October. Going forward, Indonesia Equity market will continue to depend on domestic economy development, USD/IDR currency movement and global risks' dynamics.
