### FUND MANAGER COMMENTARY

The portfolio managers maintain a defensive view overall and are not taking significant asset allocation decisions at this point in time. Despite the extraordinary policy measures announced to combat the impact of COVID-19 on global growth, and emerging attractive asset class valuations, a great deal of uncertainty remains around how the pandemic will play out. The managers are also cautious about the speed and efficiency of the implementation of the supportive policy measures, in particular fiscal policy. The allocation to defensive assets was increased, while that to Growth assets was reduced.
