FUND MANAGER COMMENTARY

In December 2020, IDR Balanced Syariah Fund booked performance of +3.14%. In last month, global equity market and domestic equity market continued the rally from November, fueled by development and distribution on vaccine as well as US stimulus announcement. In bond market, Bloomberg Indonesia Local Sovereign Index (BINDO) went up by +1.81% on monthly basis. IDR appreciation against USD (+0.5% on monthly basis), foreign inflow to capital market and higher demand in government bond auctions had pushed the yield curve lower, especially in mid to long tenor.
