FUND MANAGER COMMENTARY

In March 2020, IDR CII Equity Fund booked performance of -14.00% mom, better than the benchmark with the MXID performance of -19.7%, MXCN performance of -7.1%, MXIN performance of -21.5%. Global market and domestic market corrected significantly, driven by rapid increasing of Coronavirus cases in US and other countries outside of China, including Indonesia. In addition, significant correction in oil price, due to disagreement between OPEC and Russia, also contributed to the higher volatility. The market rebounded in the near end of months on announcement of US USD 2 trillion stimulus. Going forward, China, India, and Indonesia equities will continue to depend on economic development, currency's stability, and global risks' dynamics.
