### FUND MANAGER COMMENTARY

Indonesia local government bond market made a positive return in May 2020 with Bloomberg Indonesia Local Sovereign Index (BINDO) went up by +2.57% on monthly basis, while the IDR Prime Fixed Income Fund performance reported +2.87% return in the same month. Appetite for high yielders returned and foreign investors saw that Indonesia local government bonds as attractive after hitting the YTD lows. Rupiah appreciated by +1.8% on monthly basis against US dollar along with lower Credit Default Swap (CDS) to 175 bps in May 2020. This offset additional bond risk supply from government to counter the fiscal deficit widening (estimated from -5.07% to -6.27% of the national GDP). At monetary side, despite several emerging market's central banks slashed their benchmark rates in May 2020, Bank Indonesia maintained the 7-day reverse repo rate at 4.5% with additional statement that there is substantial room to cut going forward.
