FUND MANAGER COMMENTARY

Indonesia local government bond market reported a positive return in August 2021 with Bloomberg Indonesia Local Sovereign Index went up by +1.50% on monthly basis, and the IDR Prime Fixed Income Fund performance reported +1.30% return in the same month. The positive sentiment came after Bank Indonesia extended burden sharing agreement with MoF through a Joint Decree (SKB) III, reducing supply risk concern in government bond auction. Despite the US Federal Reserve indicated its willingness to start the taper of Quantitative Easing (QE) process this year, US Treasury yield was relatively stable as surging case of Covid19 in US may disrupt its economy recovery. On the domestic monetary side, Bank Indonesia maintained the BI 7D-RRR at 3.5% to support domestic economic growth.
