## FUND MANAGER COMMENTARY

In February 2021, IDR Balanced Syariah Fund booked performance of +1.83%. In last month, similar to January, global equity market saw a mixed performance in which most markets rallied in the early part of the month, driven by vaccination development and prospect of US stimulus, but corrected or consolidated in the later part of the month due to rising US treasury yield. Domestic market also rallied in the early part of the month and ranged in the later half of the month amid 25bps rate cut by BI and tax incentive for automotive industry. In bond market, IBPA Government Sukuk Index (IGSIX) went down by -0.52% on monthly basis. The negative sentiment came from US Treasury yields hike amid concern of tightening monetary policy from The Fed due to higher inflation and lower unemployment rate. On the monetary side, Bank Indonesia slashed 7-day reverse repo rate by 25bps to 3.5% in February 2021.
