FUND MANAGER COMMENTARY

Indonesia reported inflation of 0.32% MoM (+1.68% YoY) in May 2021, higher than 0.13% MoM (+1.42% YoY) in previous month. Inflation rose to a five-month high but still remained below the central bank's 2-4% target band. There was a broad-based pick-up across major categories, with Transportation increased the most amid the Eid festivities. Bank Indonesia (BI) predictably kept its policy rate on hold at 3.50% as BI continues to support the economic recovery and maintains IDR stability. Meanwhile, Sharia Banks maintained their mudharabah rates at the range of 2.85% - 3.50% in June and the IDR Dana Berkah Fund booked return of +0.08% in June 2021.
