FUND MANAGER COMMENTARY

In March 2021, USD Prime Global Equity Fund booked performance of +1.58% mom, in line with benchmark performance. In last month, global market performed in mixed direction with the backdrop of strong US economic recovery expectation and, consequently, rising US Treasury yield that led to generally positive performance for developed market, against policy normalization in China and weakened emerging market currency that led to generally negative performance for emerging market. Going forward, equity market will continue to depend on the development of global and domestic Coronavirus event, including number of cases, potential treatment and vaccines, and policy reaction including healthcare policy, stimulus, and support through recovery until post-Covid19 period.
