FUND MANAGER COMMENTARY

In May 2021, IDR Dynamic Syariah Fund booked performance of -0.57%. In last month, global equity market corrected in the first half of the month due to faster-than-expected inflation data from US but rebounded in the later part of the month amid softening USD environment. However, ASEAN market saw a more limited rebound due to resurgence of Covid19 cases and subsequent tightening in Singapore, Thailand, and Malaysia. In the domestic market, the same sentiment that affected the ASEAN market also put headwinds in the rebound which result in mixed performance of the domestic equities on monthly basis. In bond market, IBPA Indonesia Government Sukuk Index Total Return went up by +0.70% on monthly basis. The rally was supported by the foreign investor inflow and flush liquidity. Indonesia's GDP during 1Q 2021 contracted by -0.74% YoY from -2.19% YoY from previous quarter while Bank Indonesia maintained the BI 7D-RRR as BI reiterating its desire to stabilize the Rupiah currency and call for banks to lower their lending rates further.
