FUND MANAGER COMMENTARY

In May 2021, IDR Growth Equity Syariah Fund booked performance of -1.53% mom, slightly below the benchmark performance. By sector inside ISSI, Communication Services was the largest positive contributor (1.2% mom), while Materials was the largest negative contributor (-1.5% mom). In last month, global equity market corrected in the first half of the month due to faster-than-expected inflation data from US but rebounded in the later part of the month amid softening USD environment. However, ASEAN market saw a more limited rebound due to resurgence of Covid19 cases and subsequent tightening in Singapore, Thailand, and Malaysia. In the domestic market, the same sentiment that affected the ASEAN market also put headwinds in the rebound which result in mixed performance of the domestic equities on monthly basis. Going forward, Indonesia equity market will continue to depend on the development of global and domestic Coronavirus event, including number of cases, treatment and vaccines, and policy reaction including healthcare policy, stimulus, and support through recovery until post-Covid19 period.
