### FUND MANAGER COMMENTARY

In November 2021, IDR Prime Equity Fund booked performance of -1.80% mom, below the benchmark performance. By sector inside JCI, Communication Services was the largest positive contributor (0.2% mom), while Financials was the largest negative contributor (-0.5% mom). In last month, global equity market was corrected, driven by forecast of earlier than anticipated US Federal Reserve tightening, coupled with concern on inflation and slowing growth on reopening as well as the new Omicron Covid19 variant. The external pressure, offset by positive domestic factors including low Covid19 cases amid reopening, improvement in balance of payment, and Indonesia position as net energy producer, resulted in relatively soft correction of domestic equity market. Going forward, Indonesia equity market will continue to depend on the development of global and domestic macro and fiscal policies, geopolitics, and Coronavirus event.
