FUND MANAGER COMMENTARY

The Fed has started tapering its quantitative easing program and expectations are pointing to an acceleration of the normalization in 2022, leading to a Fed Fund rate hike possibly in June 2022. On the other hand, new virus variant Omicron sent negative sentiment to economy growth risk worldwide. As a result, US Treasury yields declined with 10Yr at 1.44% on 30th Nov vs 1.55% on 29th Oct 2021. The risk-off sentiment triggered lower return of the Bloomberg Barclays EM USD Sovereign: Indonesia Total Return Index Unhedged USD at -0.20%, while the USD Fixed Income Fund booked return of +0.11% in November 2021.
