FUND MANAGER COMMENTARY

Monthly inflation in July recorded higher at +0.64% mom (+4.94% yoy) from +0.61% mom (+4.35% yoy) in June, a record high since October 2015, as energy and food prices continued to rise. On macro side, Bank Indonesia increased the 7-Day RRR policy rate by 25bps to 3.75%, after keeping it stagnant for 1.5 years, as the pre-emptive action to tackle higher inflation caused by soon to be fuel price hike, which immediately translated to higher <1yr bond yield. Meanwhile, banking sector still has ample liquidity with the equivalent rates of mudharabah returns to remain stable at the range of 2.25%-3.25% p.a. and the IDR Dana Berkah Fund booked performance of +0.003% in August 2022.
