FUND MANAGER COMMENTARY

In August 2022, IDR Ultimate Equity Fund booked performance of +2.87% mom, slightly below the benchmark performance. By sector inside JCI, financials was the largest positive contributor (+1.4% mom), while industrials was the largest negative contributor (-0.1% mom). In last month, global equity market posted mixed performance with developed market generally corrected on Powell hawkish tone in Jackson Hole, while emerging market including India and most of Southeast Asia countries saw a generally positive performance as inflow came into this regions. In line with the region movement, domestic market also posted positive performance, supported by IDR7.4trn net foreign inflow. BI decision to increase rate by 25bps also provides support for IDR. Going forward, Indonesia Equity market will continue to depend on the development of global and domestic factors such as development on global inflationary pressure and subsequent policy reaction, global economic growth, and geopolitic situation.
