FUND MANAGER COMMENTARY

In December 2022, IDR Prime Equity Fund booked performance of -3.78% mom, slightly below the benchmark performance. By sector inside JCI, energy was the largest positive contributor (+2.8% mom), while consumer discretionary was the largest negative contributor (-2% mom). In last month, global market in general posted a correction driven by fear of higher-than anticipated Fed rate target as well as slow down in economy as the effect of the ongoing tightening. In contrast, China market rallied, driven by ongoing reopening process. Domestic market followed similar direction to the global market with most indices corrected driven by correction in most large cap amid IDR21t net foreign outflow. Going forward, Indonesia Equity market will continue to depend on the development of global and domestic factors such as development on global inflationary pressure and subsequent policy reaction, global economic growth, and geopolitic situation.
