FUND MANAGER COMMENTARY

In December 2022, USD Global Growth Opp. Equity Fund booked performance of -2.82% mom, above the benchmark performance. In last month, global market in general posted a correction driven by fear of higher-than anticipated Fed rate target as well as slow down in economy as the effect of the ongoing tightening. In contrast, China market rallied, driven by ongoing reopening process. Going forward, equity market will continue to depend on the development of global and domestic factors such as development on global inflationary pressure and subsequent policy reaction, global economic growth, and geopolitical situation.
