FUND MANAGER COMMENTARY

In September 2022, IDR Balanced Syariah Fund booked performance of -1.13%. In last month, global equity market posted a significant correction, driven by fear of recession, increased Fed hawkishness, and instability of UK financial condition. In the other hand, domestic market outperformed the global market with resilient big cap stock performance, supported by IDR3.2t net inflow due to ongoing domestic economic recovery, Indonesia position as commodity producer, and better macro stability. In sharia bond market, the IBPA Indonesia Government Sukuk Index Total Return decreased by -0.68% on monthly basis. Sukuk market responded on the 75bps US Fed hike and 50bps Bank Indonesia rate hike with a bearish movement.
