FUND MANAGER COMMENTARY

Monthly inflation in August recorded deflation at -0.21% mom (+4.69% yoy) from +0.64% mom (+4.94% yoy) in July, due to lower volatile food prices as expenditure decreases. On macro side, Bank Indonesia continued to increase the 7-Day RRR policy rate by 50bps more to 4.25%, as the preemptive move to tackle higher inflation caused by fuel price hike, which immediately translated to higher <1yr bond yield at 5.5% in September vs 4.8% in last month. Meanwhile, although banking sector still has ample liquidity, the equivalent rates of mudharabah returns have gradually increased to the range of 2.25%-4.00% p.a. and the IDR Dana Berkah Fund booked performance of +0.03% in September 2022.
