FUND MANAGER COMMENTARY

In September 2022, IDR Growth Equity Syariah Fund booked performance of -1.82% mom, above the benchmark performance. By sector inside ISSI, energy was the largest positive contributor (+0.9% mom), while communication services was the largest negative contributor (-1.4% mom). In last month, global equity market posted a significant correction, driven by fear of recession, increased Fed hawkishness, and instability of UK financial condition. In the other hand, domestic market outperformed the global market with resilient big cap stock performance, supported by IDR3.2t net inflow due to ongoing domestic economic recovery, Indonesia position as commodity producer, and better macro stability. Going forward, Indonesia Equity market will continue to depend on the development of global and domestic factors such as development on global inflationary pressure and subsequent policy reaction, global economic growth, and geopolitic situation.
