FUND MANAGER COMMENTARY

In August 2023, USD Global Growth Opportunity Equity Fund booked negative performance of -2.14% mom, above the benchmark performance. Global equity markets corrected last month due to higher US Treasury yield following US credit rating downgrade and continued worry of a hawkish Fed, as well as continued China economic weakness and property developers credit default risk. Going forward, we believe the stable and balanced growth of global economy over the long-term would be a strong, positive tailwind for USD Global Growth Opportunity Equity Fund's upside potential in medium-to-long term.
