## FUND MANAGER COMMENTARY

In February 2023, IDR Dynamic Syariah Fund booked performance of +0.64%. In last month, global market posted a correction due to reversal in US disinflation trend as strong inflation, labor market and other macro data led to expectation of higher-for-longer rates as well as due to profit taking in China market after reopening rally. In the other hand, domestic market posted a resilient performance with flattish movement driven by satisfactory ongoing result announcement and strong macro data including GDP, trade data, and softening inflation. Net foreign flow turned positive again with IDR5.8tn inflow in February. IBPA Indonesia Government Sukuk Index Total Return performance recorded +0.08% on monthly basis. The sharia bond market had a mixed movement due to unexpected weak tone of Fed officials although domestic macro condition is already to support monetary policy loosening by keeping BI "7dRRR" at 5.75%.
