FUND MANAGER COMMENTARY

In March 2023, IDR Equity Syariah Fund booked performance of -1.12% mom, in line with benchmark performance. By sector inside JII, Communication Services was the largest positive contributor (+0.6% mom), while Materials was the largest negative contributor (-1.1% mom). In last month, global market closed higher MoM with correction in the earlier part of the month due to Fed hawkishness as well as concern on global financial stability due to several banks failure in US and rebound in the second part of the month due to dissipating fear of contagion as Fed provided backstop program. Driven by the external factors, domestic capital market also moved in the same pattern but ended flattish on MoM basis, with IDR 4.1trn net foreign inflow which majority came in the last one week of the month. Going forward, the potential of sustainable and structural improvement in Indonesian economy with rising GDP/capita will become positive tailwind for long term Indonesian equity asset class for medium-long term horizon.
