## FUND MANAGER COMMENTARY

We are far from smooth sailing from here as many of the risks that were present last year such as Russia/Ukraine war, restrictive monetary policy, elevated inflation prints etc. are still present today. The recent stress in the banking system is likely an accelerant of tightening credit conditions that may lead to a further slowdown, which coupled with declining corporate earnings as well as an unswaying Fed determined to tame inflation, has made a recession this year in the US a near-certainty. The Advanced portfolios continue to be diversified with underweight in equities while adopting a neutral stance on fixed income and remaining cautious on High Yield credits due to expectations of widening spreads.
