## FUND MANAGER COMMENTARY

In May 2023, IDR Prime Equity Fund booked performance of -0.75% mom, above the benchmark performance. By sector inside JCI, Consumer Discretionary was the largest positive contributor (+1.4% mom), while energy was the largest negative contributor (-3.1% mom). In last month, global equity market generally posted negative performance due to concern on China's economic recovery which also put pressure on commodity prices as well as due to intensifying US debt ceiling issue. Domestic market also closed lower, mainly driven by correction in commodities sector, although net foreign inflow still on slight positive territory at IDR1.7trn. Going forward, the potential of sustainable and structural improvement in Indonesian economy with rising GDP/capita will become positive tailwind for long term Indonesian equity asset class for medium-long term horizon.
