FUND MANAGER COMMENTARY

In November 2023, USD Onshore Equity Fund booked positive performance of +7.80% mom, above the MXID performance (in USD). By sector inside MXID, Financials were the largest positive contributor (+2.6% mom), while Industrials was the largest negative contributor (-0.4% mom). In last month, global equity market rallied significantly driven by dovish Fed stance as well as softening US inflation and labor data, which shifted market perception from a higher for longer interest rate into goldilocks situation in which disinflation create room for rate cuts without significant growth deterioration in the US. Domestic market, in general, followed the rally amid strengthening IDR against USD (-2.36% mom to IDR 15,510/USD). Going forward, the potential of sustainable and structural improvement in Indonesian economy with rising GDP/capita will become positive tailwind for long term Indonesian equity asset class for medium-long term horizon.
