FUND MANAGER COMMENTARY

In October 2023, IDR Dynamic Syariah Fund booked performance of -2.82%. In last month, global equity market corrected, driven by 10 years US treasury yields rally that touched 5.0% level before closed at 4.9% at the end of the month amid concern on oversupply. Domestic market also saw a correction amid IDR weakening against USD (2.8% MoM weakening, closed at IDR15,885USD). IBPA Indonesia Government Sukuk Index Total Return performance recorded -0.66% on monthly basis. Negative sentiment came from the potential prolonged higher interest rates in United States and the risks from escalating geopolitical tensions in the Middle East. Meanwhile, Bank Indonesia surprisingly raised its policy rate by 25 bps to 6.00%, marking the first hike since Jan-2023 to respond to the sharp depreciation of IDR -2.71% monthly against the USD due to global financial market uncertainty and as a pre-emptive measure to mitigate the impact on inflation.
