FUND MANAGER COMMENTARY

Global equities continued to rally in August 2024, recovering strongly from the spike in volatility in earlier in the month. For the month ending August 2024, the defensive sectors of Health Care, Consumer Staples and Utilities led while Energy, Consumer Discretionary and Materials lagged. In terms of investment styles, Minimum Volatility outperformed while Momentum underperformed. Across the major geographic regions, Europe equities led, while China equities lagged. The fixed income markets also delivered positive returns in August 2024. US Treasuries, Investment Grade and High Yield indices all delivered positive returns in August 2024. Corporate bonds outperformed Treasuries. Treasuries index was up as US 10-year yield declined in August 2024. Credit spreads of Investment Grade tightened in August 2024 while that of High Yield was about flat. The Commodities markets had mixed performances in August 2024. Gold was up while Oil and Copper were down in August 2024. The US Dollar fell against both DM currencies and Asia currencies in August 2024. Looking ahead, there is capacity for the Elite Funds to add risk. To that end, we are carefully analysing the markets and will be guided by our balance-of-indicators approach.
