FUND MANAGER COMMENTARY

In August 2024, USD Prime Global Equity Fund booked positive performance of 2.04% mom, in line with benchmark performance. Last month, global equities have been on a roller coaster ride last month. The spate of negative news - Yen carry trade unwinding, US recession fears and Israel-Iran tension rattled investors in early August. However, risky assets breathed sigh of relief post BOJ Deputy Governor Uchida's commentary and fed pivot at Jackson Hole address. Global equities rose over the month MXWO +2.5%MoM/ +16%ytd driven by Brazil, Euro, and South Africa. Going forward, equity market will continue to depend on the development of global and domestic factors such as development on global inflationary pressure and subsequent policy reaction, global economic growth, and geopolitical situation.
