FUND MANAGER COMMENTARY

In December 2024, USD Adventurous Conservative Fund booked positive performance of -1.58% mom in-line with the benchmark. Global equities dipped in December 2024, though still ended the year up in double digits. For the month ending December 2024, Communication Services, Consumer Discretionary and Information Technology led while Materials, Energy and Utilities lagged. The fixed income markets fell in December 2024. US Treasuries, Investment Grade and High Yield indices all were down in December 2024. Treasuries index was down as US 10-year yield increased significantly in December 2024. Credit spreads expanded in December 2024 with High Yield spreads expanding more than Investment Grade spreads. The outlook for equities over the medium term remains constructive. On the fundamentals front, the US economy remains resilient and earnings growth in 2025 is expected to be higher than that of 2024. Investors have enjoyed 2 years of double digit returns in equity markets. Our assessment is that we remain in an equity bull market though the pace of increase in 2025 is expected to be more muted compared to the previous 2 years. In such an environment, Elite Fund's top-down (via AIA Stewardship) and bottom up (via best-in-class active managers) active management are poised to be important levers to steer the portfolio to achieve its investment objectives.
