FUND MANAGER COMMENTARY

In February 2024, IDR Prime Equity Fund booked positive performance of +1.52% mom, in line with benchmark performance. By sector inside JCI, Financials was the largest positive contributor (+1.4% mom), while Consumer Discretionary was the largest negative contributor (-0.5% mom). Last month, global equity market posted a good performance with US market closed higher driven by good labor data. China market also rebounded strongly supported by high frequency data like credit report and Lunar new year consumption data. Domestic market also posted a good performance given a smooth and peaceful one-round election that we had. This gives a sense of certainty and thus saw a strong foreign inflow of Rp 11.7Tn during the month of February. Going forward, the potential of sustainable and structural improvement in Indonesian economy with rising GDP/capita will become positive tailwind for long term Indonesian equity asset class for medium-long term horizon.
