FUND MANAGER COMMENTARY

Global equities continued to rally in January 2024. The Communication Services and Information Technology sectors led the rally while the Materials and Utilities sectors lagged. Large cap equities outperformed small cap equities in January 2024. Across the major geographic regions, US equities outperformed while Asia equities continued to lag. Fundamentals remain resilient with labour market remaining tight and earnings growth inflecting from the 2022 lows with earnings growth expectation to continue its positive trajectory in 2024. The outlook for equities over the medium term is constructive. However, the recent new high in US equities was accompanied with divergences in price action against breadth, high yield credit spread and VIX. The Advanced portfolios remained to be diversified.
