### FUND MANAGER COMMENTARY

In March 2024, USD Prime Greater China Equity Fund booked positive performance of +1.78% mom, below the benchmark performance. Last month, global equity market posted a good performance. Diminishing odds of recession, a still dovish Fed, and resilient corporate earnings combined to drive strong equity returns in March, as well as through the first quarter. US outperformance continued. Greater China also performed well. Materials, Discretionary, and Industrials ranked top-three performers, while Real estate, Financials, and Healthcare were the bottom three. China's Jan-Feb activity generally beat expectations. Industrial production rose 7.0% y-y, consistent with stronger-than-expected export data and solid manufacturing activity. Retail sales rose 5.5% y-y in Jan-Feb. Trade surplus further widening to US\$125.2bn. Going forward, equity market will continue to depend on the development of global and domestic factors such as development on global inflationary pressure and subsequent policy reaction, global economic growth, and geopolitical situation.
