FUND MANAGER COMMENTARY

IDR Prime Fixed Income Fund generated +1.28% in August 2025, and the 10-year government bond yield declined by 21 bps to 6.36%. Market sentiment was supported by IDR 18.1 trillion in foreign inflows into the bond market. Meanwhile, Bank Indonesia (BI) lowered its benchmark rate by 25 bps to 5.00% at its August Board Meeting, marking the fourth rate cut year-to-date despite stronger-than-expected Q2 2025 GDP growth of 5.12% YoY and broader indicators continuing to point to a slowing economy. BI emphasized that the rate cut aligns with expectations for inflation to remain within the 2.5% \pm 1% target corridor in 2025–2026, while also supporting rupiah stability and economic growth.
