FUND MANAGER COMMENTARY

In December 2025, USD Global Growth Opportunity Equity Fund booked a positive performance of +1.32% MoM which was in-line with benchmark performance. Last month, Global equity delivered positive returns in December 2025. Across the major geographic regions in USD terms, Europe equities led, while India and China equities lagged in December 2025. The Fed cut rates by 25 bps in-line with market expectation. China and Hong Kong Equity delivered their best annual returns since 2017, outperforming major global peers, despite moderate pullback in December. Caution prevailed in December amid weakening macro activity and rising concern on over the default risk at Vanke. Bonds were mixed in December 2025. US high yield corporate bonds delivered positive returns while US treasuries and US investment grade corporate bonds were down in USD terms. We are moderately constructive on the outlook for risk assets over the medium term.
