FUND MANAGER COMMENTARY

In June 2025, USD Adventurous Fund booked positive performance of +2.92% mom below the benchmark by 146 bps. Global market rose in June, with the MSCI World gaining 4.4% and finished the first half of the year at a record high. The fixed income markets also rallied in June 2025. US treasuries, US investment grade corporate bonds and US high yield corporate bonds all delivered positive returns in June 2025. US economy remained resilient in the face of tariff uncertainties. Unemployment rate in June 2025 was lower compared to May 2025. The direction of the USD is an important trend to watch as this development is a departure from recent years where US assets outperformed alongside USD strength. We are constructive on the outlook for risk assets over the medium term.
