### FUND MANAGER COMMENTARY

In June 2025, the fund generated a positive performance of +2.16% mom. The positive performance of the fund was due to high yield bonds, emerging market debt local currency as it is positive with weaker USD. On the equity side, Chinese and Korean equities also contributed positively. June witnessed geopolitical tension as Israel launched airstrikes against Iran's nuclear facilities, causing a spike in oil price which surged by 23% before stabilizing in June. The US subsequently initiated its own strikes against Iran. Early June was marked by tariff news and legal disputes over imposed tariffs. Concerns also grew about the US fiscal situation, exacerbated by Moody's downgrade of the US credit rating and attempts to pass a tax bill, causing bond yields to spike before recovering despite political uncertainties, macroeconomic data showed resilience, with recession fears diminishing and June flash purchase manager indices (PMIs) indicating expansion.
