FUND MANAGER COMMENTARY

The USD Fixed Income Fund experienced a negative return of -0.05% in May 2025. This was influenced by the 10-year US Treasury yield and USD Indonesia Government bond yield, which increased by 24 bps to 4.40% and by 1 bps to 5.41%, respectively. Meanwhile, de-escalation in trade frictions and Moody's Ratings' downgrade of the U.S. sovereign credit rating were key catalysts for the upward movement in yields.
