### FUND MANAGER COMMENTARY

In May 2025, USD Prime Multi Asset Income Fund booked positive performance of +0.93% MoM primarily driven by High Yield bonds, Dividend equities, Structured credit. Global equity markets rose in May, and gains were broad-based. US equities outperformed and were in positive territory on a year-to-date basis. US Treasury fell on fiscal concerns. US Treasuries and government bonds faced challenges, contributing to a less favorable performance. The Japanese yen also struggled. Policy making in the US continues to drive uncertainty, potentially leading to the tide coming out for US assets.
