FUND MANAGER COMMENTARY

In September 2025, USD Adventurous Balanced Fund booked positive performance of +1.58%mom, underperforming the benchmark. Last month, Global equity market continued to rally for the sixth consecutive month with South Africa and China were the best performer market while Indian equities lagged. The Fed announced a 25bps rate cut as expected. Chinese stocks had its best run of monthly gain since 2018 driven by optimism over artificial intelligence, easing geopolitical tension and expectation of policy support. For the month ending September 2025, Information Technology, Communication Services and Materials led while Consumer Staples, Energy and Health Care lagged. The fixed income markets delivered positive returns in September 2025. US treasuries, US investment grade corporate bonds and US high yield corporate bonds delivered positive returns. We are moderately constructive on the outlook for risk assets over the medium term.
