FUND MANAGER COMMENTARY

In June 2026, IDR Balanced Syariah Fund booked performance of -4.05% mom, above the benchmark performance. Indonesian equities saw another month of sharp sell-off, with the JCI and JAKISL declining -7.9% MoM and -13.3% MoM respectively. The month was defined by idiosyncratic Indonesia-specific headwinds — rupiah weakness, aggressive monetary tightening, policy uncertainty, and a looming MSCI reclassification risk — rather than a broad EM selloff. The rupiah breached the 18,000-per-dollar level in early June, hitting fresh record lows. BI responded with an off cycle 25bp rate hike, followed by another 25bp on June 18 (to 5.75%) its third hike in a month. Investor confidence was rattled by a series of perceived policy missteps under President Prabowo. Additionally alleged graft case drove foreign investors risk-off. Foreign investors recorded a net equity outflow of Rp25.1tn (US$1.4bn) in Jun 2026, bringing YTD net foreign outflows in equities to Rp82tn (US$4.8bn). Within JAKISL, all sectors delivered negatively except for Healthcare. The largest negative contributors came from Materials, Communications, and Energy. IBPA Indonesia Government Sukuk Index Total Return recorded negative return -2.98% on a monthly basis. Market sentiment was still negatively impacted by depreciation of the Rupiah reaching IDR18,178 per USD before gaining some strength by the end of June, closing at IDR17,874 per USD. Moreover, foreign reserve kept declining by USD1.3 billion to USD144.9 billion in May which brought the cumulative drop in reserve to USD11.6 billion YTD. Therefore, Bank Indonesia (BI) raised its benchmark interest rate twice in 9th and 18th June 2026 to 5.75% from 5.25% in a move aimed at strengthening Rupiah stability amid elevated global uncertainty.
