### FUND MANAGER COMMENTARY

In May 2026 USD Prime Greater China Equity Fund booked +2.56%MoM, which was below benchmark performance. Last month, while Iran conflict continues to simmer, Global equity markets continued a strong rally in May 2026 with Asia equities led and Europe equities lagged. After weathering a bout of volatility, IT was once again the best-performing sector by far. In the United States, NASDAQ was a standout performer with investor euphoria around the AI trade. In Asia, South Korean were notable outperformer, with KOSPI reportedly up more than 100% ytd by end of May driven by AI momentum and semiconductor tailwinds. China equity market declined in May 2026, underperforming global peers as risk appetite softened across China and HK equities. We are moderately constructive on the outlook for risk assets over the medium term.
